March 6, 2014 4€ To access these ASAs, I use the ASDM IDM v1.5(64) launcher. I have a Java Application Shortcut for one of the ASAs, but not all of them, and I have a .jar file with the same name but with a different extension. I don't know why the .jar file is not working. I used "jrex", "jrex" and "jrex2". Please help me why can't I access ASA via IDM I have the same problem. I downloaded the new JDK and installed it. I followed the steps in this article. I used Eclipse to install and run the new JDK. I verified this with the JDK launcher. I am using ASDM. I had an error where the jar file didn't work.
