is a popular DJ software from the company Serato Software. Serato DJ Pro Software is a powerful DJ software for editing music with amazing features. Use the Serato software to mix and burn CDs for your home or DJ's studioâ€¦. The Pioneer DDJ-SX2 is an amazing controller. I have been using Serato for years and dont know anything about. The software is not compatible with standard controllers. It has a single pad for scratching while the second pad is used for adjusting the level of the audio track. Both of the pads can also be used to scratch. There are two modes. You can either do conventional scratching or party scratching. Conventional scratching uses the right and left channels while party scratching
