Please help me with advice - what is the best and right to do in the following situation: there is in the presence of the license key WinCC ... Hello. I am currently trying to get started with AutoCAD Mechanical 2013 for my drawings. Can you tell me how to correctly prepare a drawing for printing, i.e. what should be in it for printing to be high quality? I am currently trying to get started with AutoCAD Mechanical 2013 for making drawings.
